invites you to a third CETS / SEETSI regional scientific-technical conference

EFFECTIVE REGULATION POSTAL MARKETS AND SUSTAINABILITY UNIVERSAL SERVICE

in Sarajevo, Faculty of Traffic and Communications, Bosnia and Herzegovina,
12th XI. 2010th

Purpose and Objectives: The initiative SEETSI (South Eastern Europe Transport System Integration) is a regional initiative and the evolution of CETS previous conference held in Zagreb in 2008. year. This conference focused on sharing information and creating networking Knowledge Base (NBC) to effectively regulate the postal market and development (adapted state) model of sustainable provision of universal services. The main topics are the analysis of markets and the regulation of postal and logistics services, but theoretical contributions include the generic concepts of universal services (postal, communications, logistics and other) knowledge management and modeling of complex systems (CLIOS etc.)

Thematic units are:

1. Concepts and models for the sustainable provision of universal services
2. The role of regulatory agencies and the liberalization of postal market
3. Analysis of the postal market in the CEE & SEE countries
4. The reengineering of postal technology and networks
5. Safety and protection of the globalized postal logistics system
6. The development of postal logistics & intelligence systems
7. Knowledge management in the postal and logistics domain

Participants: Scientists and experts in the field of postal services and logistics.
